WITH PREMIER
By WILLIAM E. ZIMMERMAN
(U.S. Staff Correspondent)

WASHINGTON, Aug. 18.—(INS)—Anglo-American representatives today sought an interview with Hungarian Premier Dinnyes after both Washington and London bitterly charges his communist-dominated government with advance rigging of the Aug. 31 national election.

The American and British officials in Budapest were instructed to jointly urge the Hungarian chief to take all necessary steps to correct "prevailing electoral abuses".

In its most blistering denunciation to date of a Russian satellite state, the United States attacked "grotesque" Communist-rigged elections which have "deprived" an estimated one million Hungarians of the vote.

The American State Department declared that the United States "is prompted in this matter by its desire that freedoms guaranteed by the treaty of peace with Hungary... shall not be denied the Hungarian people."

"Disfranchise Non-Communists"
In its protest, the United States expressed "serious concern" over Budapest reports of "widespread

And coming up just two weeks from today is Labor Day holiday.

W. L. Rodgers, R. D. 2, reported to Pa Newc this morning that he pulled a hill of potatoes from his garden early this morning, and it contained ten good sized potatoes and five others of the size of a marble.

One of the landmarks at New Bedford, a two story red brick dwelling on the main route through the town is being razed, Pa. Newc noted.

Numerous Valley towns received heavy rains on Sunday, while little rain fell in the immediately vicinity of New Castle. In a 75 mile drive to West Virginia, three heavy storms were encountered by one of Pa Newc's boys enroute.

Maybe you were not aware of the fact that last night was the hottest night of the summer. The official temperature report says the low mark stood at 71 degrees, but a lot of folks believe it was hotter than that in many places. The previous high of the summer was 69 degrees. There was great amount of humidity in the air which accentuated the temperature over the weekend.

Economic Crisis In Britain Is Studied

WASHINGTON, Aug. 18.—(INS)—American and British treasury experts began closed-door conferences today in an effort to meet the most immediate problem in Europe's economy—the British economic crisis.

The United States was reported prepared to lay down some stiff facts at the beginning of the talks originally called to deal with liberalization of the American loan agreement.

Sir Wildred Eady, deputy chancellor of the exchequer and chief of the British delegation, denied that a new loan will be requested. He said:

"We're going to talk about the loan and its rapid exhaustion. England really is not bad off, but we've been running through the dollars faster than expected."

Prosecution In Overell Murder Case Nears End

SANTA ANA, Calif., Aug. 18.—(INS)—The sensational love letters which created such a stir at the Overell murder trial last week were the center of attention briefly again today as the prosecution's case drew toward a spectacular close.

The last of the sizzling notes were being read by the six man, six woman jury hearing murder charges against helless Beulah Louise Overell and her sweetheart, George R. Gollum.

Today's session marked the beginning of the thirteenth week of the bitterly-contested trial.

Will Visit Yacht Again
Special Prosecutor Eugene D. Williams has announced that after the notes have been disposed of, probably before the would move for a second trip to the dynamited yacht aboard which the girl's parents, the Walter E. Overells, perished. He added he then would rest the state's case.

Otto A. Jacobs said this would be followed by a motion for dismissal of the case against Miss Overell. The defense attorney said the request would be based on a contention that the state has failed to connect the girl with the death of her parents.

Three Dead In
Shooting Affray
At Wilkes-Barre

WILKES-BARRE, Pa., Aug. 18.—(INS)—Police reported that Frank Seminario, 62, of Wilkes-Barre, died today from two self-inflicted bullet wounds in the chest, after fatally shooting his former landlady and her daughter and wounding another daughter.

Mrs. Mary Cundari 42, died immediately with two bullet wounds near her heart, according to detectives. Her daughter, Helen, 24, died yesterday in Wyoming Valley Hospital.

Josephine, 22, was reported in fair condition with wounds in the right hand and chest.

Police said Seminario had boarded at the Cundari home for eleven years, but left four years ago at the daughters' request. He allegedly sought revenge at that time, detectives added.

Lincoln Highway
Motorists Have
Unusual Delays

PHILADELPHIA, Aug. 18.—(INS)—Motorists in the Philadelphia area had a hectic week end putting up with the idiosyncracies of the pre-auto age horse and the airplane.

Near suburban Paoli, all traffic on the Lincoln highway was halted 20 minutes while an airplane used the road for a runway. And in Camden, N. J., a runaway horse wrecked his milk wagon, two automobiles and a front porch.

Jesse Bortell, 26, of Huntington, W. Va., pilot of the monoplane, landed in a field beside the highway during a fog, but was unable to take off again because of overhead wires.

Police obligingly halted traffic while he and his passenger, Clifford Swann, 22, also of Huntington, taxied down the road and got into the air.

The runaway horse got tired of hauling a Supple-Wills-Jones milk wagon and bolted. He rammed into one automobile, bounced off onto the front porch and landed on top of the second automobile.

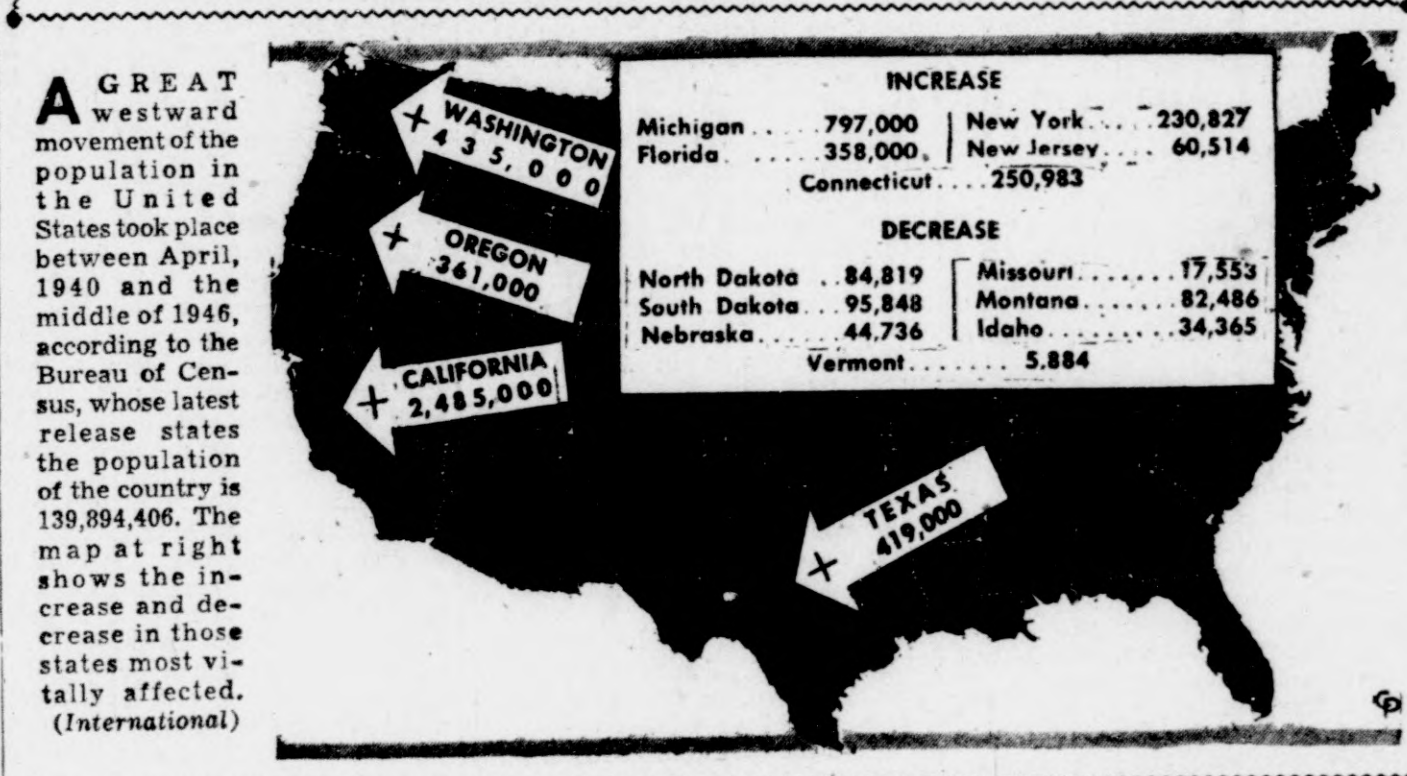

Price Fixing Charge
Is Filed Against
Steel Industry

WASHINGTON, Aug. 18.—(INS)—Firms comprising the bulk of the nation's steel industry today faced Federal Trade Commission charges of price fixing in the government's first direct assault on the mounting price spiral.

The FTC declared that members of the American Iron and Steel Institute "act collectively and collusively in the production and pricing of their goods" and therefore are in a position to destroy competition.

In a formal complaint, the commission listed 26 larger corporations by name and charged that all of the 100-odd members of the institute maintain identical delivered price quotations by using a multiple basing point system.

Yesterday's showers drenched the east side of Pittsburgh and completely missed the west side. Damage of \$8,000 was caused to facilities at the Center Beach picnic grounds and swimming pool when two small creeks became raging torrents following a localized cloudburst.

Basements were flooded, traffic tied up and other damage caused in Pittsburgh's Hazelwood district by the downpour.

The pilot, Howard Rowe, 36, of Detroit, and Betty Piotrowski, 20, of Dearborn, another passenger, were rescued by the St. Clair Shores police harbormaster.

Guardsman Of State In Colorful Review At Indiantown Gap

HARRISBURG, Aug. 18.—(INS)—Approximately 6000 Pennsylvania National Guardsmen today pushed into their last week of training on the Indiantown Gap military reservation following a colorful Sunday review witnessed by more than 7500 persons.

Rain threatened throughout the ceremonies which were highlighted by presentation of colors, standards and guidons to units scheduled to form the nucleus of a force of approximately 40,000 men.

Officially the "governor's review", a battery of field guns roared a 19-gun salute to Gov. James H. Duff when he ascended the reviewing stand on Muir field.

Flanking Duff on the reviewing stand were Adjutant Gen. Frank A. Weber, Brig. Gen. Charles C. Curtis, camp commander, Brig. Gen. Daniel B. Strickler, 28th division commander, and U. S. Sen. Edward Martin who headed the division during the early war-time training.

The official party inspected the massed troops prior to the review and returned to the reviewing stand for presentation of colors and award of the distinguished unit citation to the 229th field artillery battalion, New Castle, and the 12th infantry, Erie, for bravery in the 1944 "Battle of the Bulge" while operating as the 12th regimental combat team.

The award was accepted on behalf of the unit by Col. J. M. Nelson, wartime commander of the RCT. At the start of the review, Strickler was Adjutant Gen. Frank A.

FIVE CHILDREN
SAVED IN FIRE
HARRISBURG, Aug. 18.—(INS)—Five children trapped by flames in a Strasburg house owed their lives today to the quick thinking of their parents who dropped them from a second floor window to the waiting arms of neighbors and then jumped to safety.

The flames swept through the house of Mr. and Mrs. Lloyd Wenger after a kerosene refrigerator exploded early Sunday. The children ranged from one to 14 years of age and only one suffered an injury in the fall, a minor cut.

Eighty-five-year-old Enos Herr, owner of the house, suffered a burned foot while escaping the flames.

Charges Against Mediter-

mander To Be In-
vestigated

WASHINGTON, Aug. 18.—(INS)—Maj. Gen. Ira T. Wyche, inspector general of the Army, leaves Bolling field today for Italy, where he will investigate charges against Lt. Gen. C. H. Lee, commanding the Mediterranean theater.

Accompanying Wyche are Col. Eugene L. Miller and Lt. Col. Richard P. Tipton.

Informal charges have been made that Lee imposed unnecessary discipline on enlisted men—including superfluous saluting.

Other charges were that he forced enlisted men to act as servants for officers, and that the enlisted men had poor food and quarters while officers in the field lived in luxury.

Wyche was ordered to the Mediterranean by Chief of Staff Eisenhower as soon as Eisenhower returned from an Alaskan inspection and was informed of the charges.

JUDGE LAMOREE
MAKES ADDRESS
West Pittsburgh fulfilled a promise Saturday, a promise made many times during the war that at war's end and the men returned, there would be a Welcome Home party.

Saturday was the day and the promise was amply fulfilled. From ten o'clock Saturday morning until nearly midnight, West Pittsburgh was in holiday mood. A parade at ten in the morning, the dedication of an honor roll at ten thirty with Judge John K. Lamoree making the address and at noon a lunch for the veterans. A band concert filled the time between noon and the Welcome Home dinner at five o'clock.

For the dinner in the Diaz hall at five o'clock it seemed that most of the men who served were present. All save the eleven who did not return. The women of West Pittsburgh had prepared a bountiful dinner of spaghetti and meat balls and roast chicken and the activities of the day had sharpened the appetites of the men.

All aboard the other army plane were picked up in the Bering sea by a navy vessel.

Much Damage
By Cloudburst
At Wilkes-Barre

WILKES-BARRE, Pa., Aug. 18.—(INS)—Nearly 100,000 persons in the Wilkes-Barre area were left temporarily without water today as the result of a cloudburst which burst an aqueduct, washed out highways and sent mud sliding down onto railroad tracks.

The heavy rain left the drinking water supply heavy with mud, and sent residents scurrying for soft drinks, milk and bottled water. Officials of the Scranton-Springton Water company, said it might take 48 hours to clean up the water supply.

Many Landslides
Pennsylvania railroad officials estimated it would take three days to remove landslides from its tracks between Nanticoke and Wilkes-Barre.

A bridge washed out halted service near Nanticoke on tracks used by the Delaware & Hudson railroad and the Central railroad of Pennsylvania.

Routes 11 and 28 were washed out, and the home of Joseph Harris was washed away when a canal burst and turned Harvey's creek into a raging torrent.

Nearly six inches of rain fell in the four-hour storm.

East And West
In Deadlock On
UN Membership

By PIERRE J. HUSS
(U.S. Staff Correspondent)
LAKE SUCCESS, N. Y., Aug. 18.—The east and west deadlock over new membership petitions takes the spotlight in the United Nations Security Council today.

Ten out of eleven applicants are being turned down solely on the grounds that they are adherents of the two rival factions.

The 11-nation body will begin consideration of the 11 applicants this afternoon, but the die is cast. Only the Arabian kingdom of Yemen is expected to escape the political guillotine being used by the eastern and western powers against each other.

Max Admit Yemen
With Yemen as the likeliest 56th member of U. N., a subsequent special procedure by the council probably will enable the new state of Pakistan to secure early membership as the 57th.

The Soviet Union practically has announced beforehand her intention of vetoing in the council the applications of the Transjordan, Ireland, Portugal, Italy and Austria.

The United States and Britain, along with China and France, are determined to bar—by veto if necessary—approval of applications from the communist-dominated Soviet satellites of Albania, Outer Mongolia, Hungary, Romania and Bulgaria.

ON PLANE LOST
(BULLETIN)
PEARL HARBOR, Aug. 18.—(INS)—George Atcheson Jr., America's top diplomat in the Far East, was presumed dead today along with nine other men, while three injured survivors were safely ashore after an army bomber crashed into the shark-infested Pacific off Hawaii.

Of the doomed plane's thirteen occupants, six were listed officially as known dead and four presumed killed with their bodies still unrecovered.

The latter included Ambassador Atcheson who was en route from Tokyo to Washington on a vital mission when the B-17 plunged into a raging sea some 75 miles northwest of Hawaii.

Three Survivors
The three survivors were carried ashore on stretchers from aboard the U. S. destroyer Rowan which brought them to Pearl Harbor last night.

The Rowan also returned the bodies of five of the victims, including that of a navy captain Randolph Boyer, a high-placed official of the occupation staff in Japan.

A sixth body, believed that of an army colonel, was seen to sink before it could be reached at the disaster site where sharks were observed attacking some of the men killed in the plunge.

Hunt For Missing
An air-sea search was pressed for the four still missing and presumed dead. In addition to Atcheson, ace political advisor to Gen. Douglas M. Arthur and chairman of the Allied four-power council for Japan, these included Capt. R. K. Still, the pilot who made an heroic attempt to crash-land the bomber.

GIVE DETAILS OF APPROACH OF
Plane Disaster In Pacific
Near Oahu Island

PEARL HARBOR, Aug. 18.—(INS)—Navy authorities released today the last words spoken over the radio by the pilot of the B-17 that plunged into the sea off Hawaii, with George Atcheson Jr. and twelve others aboard.

As recorded at the air-sea rescue office in Pearl Harbor, Pilot Capt. R. K. Still in a conversation with a navy officer expressed belief he would barely be able to make land on Oahu Island as his gasoline supply dwindled.

"Ditching" Big Plane
Then he reported first one and then a second of his four engines failed and he was losing altitude. Finally he reported he was "ditching" the big army plane. Then his radio went dead.

First radio contact was made at 11:19 o'clock Saturday night (1:19 a. m. Sunday, PST) when Pilot Still said:

Go seek him out and bring him to me, each hour I'm getting stronger in my desire to tell him off, who says the skirts shall be longer. And then again I would see the lad who has made this slip, who says the ladies both young and old must now wear those padded hips. Away with such trumpery I insist, let the ladies wear what they may, I'm still against pads and the longer skirts—it's hot, ninety-one today.

A pretty, blonde 23-year-old Niles, Mich., waitress today told state police that she was kidnapped and criminally attacked by a "tall, thin" Negro.

Miss Meyers told police that the bandit drove her to a field about nine miles east of Niles and there criminally assaulted her.

She said the Negro then drove her to a highway and gave her "fifty cents for cab fare."

Officials said the girl is in "good condition."

As the moment of the crash approached, Still asked:

Then he said, "now ditching," and there was silence.

talks after which Cameron Cobbold, deputy governor of the Bank of England, left by plane for Washington to join the discussion.

The meeting was decided on immediately after British Prime Minister Clement Attlee imposed new austerity measures to meet the dollar crisis in England.

Since then the remnants of the dollars in the three billion three hundred million dollar British loan fund have dwindled to 850 million.

Because of this and other changed conditions and the rapidly with which the crisis is growing, the meetings at the treasury building in Washington are expected to center in other measures which might be taken in addition to loan liberalization.

Highest on the agenda of these is believed to be the stimulation of British coal production.

AMERICA'S TOP DIPLOMAT LOST

(Continued from Page One)

Atcheson was smiling and calm as the big flying fortress hit the angry waters yesterday and remarked coolly that the accident "couldn't be helped."

The crash occurred at about 11:45 o'clock Saturday night (1:45 a. m. Sunday, PST) after the B-17, en route from Kwajalein to Honolulu, ran dry of fuel. The plane, one of Gen. MacArthur's personal aircraft, was shattered into bits of wreckage by the impact.

Survivors Identified

The three survivors are Col. Harvey Haglin of Fairfield, Ia., attached to Gen. MacArthur's staff; Capt. P. L. Ryder, Ponca City, Okla., navigator of the plane; and an army corporal named Holland.

(In Tokyo, army headquarters identified the third survivor as Sgt. Lee C. Holland of Comstock, Tex.)

On Vital Mission

The two colonels and the navy captain were Col. Haglin's companions on a mission which would have taken them to Washington as members of the Far East command's joint strategic plans and operations group.

Atcheson himself was en route to Washington on a mission understood to have been of the highest importance, reputedly connected with the forthcoming election-nation conference to lay the groundwork for a Japanese peace treaty.

Names of the three others of the known dead were withheld, presumably pending notification of their nearest of kin.

Great Loss To U. S.

TOKYO, Aug. 18.—Gen. Douglas MacArthur's headquarters today declared the presumed death of George Atcheson, Jr., chairman of the allied council for Japan, to be "a great loss to a critical time."

Official Tokyo mourned the loss of Atcheson, which MacArthur's spokesman said came when "the United States preparing for the Japanese parleys, needs all its diplomatic with Far Eastern experience."

Messages of condolences poured into headquarters from high ranking officials to lay the groundwork for a Japanese peace treaty.

GUARDSMEN OF STATE IN COLORFUL REVIEW AT INDIANTOWN GAP

(Continued from Page One)

ler told Governor Duff that the morale and pride of the guardsmen has been raised by possession of the colors.

Governor Speaks

In a brief address, Duff pointed out that the range of mountains near the reservation was America's western frontier only 200 years ago and said the progress of events, in the world made it impossible to reconcile "a local or provincial attitude in military affairs."

He emphasized that the nation was living in "the most critical period in the history of the United States" and that the guard had inestimable value "to Pennsylvania and the nation."

Martin, whose military records go back almost half a century to the Philippine insurrection, complimented officers and men, told them they had done "magnificently" during initial assignments and said he was "impressed with the seriousness of the training."

Review Started

Following the brief speeches, color guards returned to their units at Strickler's command and the review started to the music of the 28th infantry band from Altoona and the 243rd army ground forces band from Altoona.

For more than 90 minutes marching men swung by the reviewing stand, unit standards dipped.

Although the training for the review only started with the opening of the summer encampment a week ago, the guardsmen kept straight lines and marched by snappily.

Motorized equipment was not a part of the review and a scheduled flight of fighter planes from the guard's 51st air wing was cancelled because the ceiling had pushed down to 400 feet.

When the 110th infantry regiment from Washington marched by, one of the color guards was S-Sgt. Donald W. Hanna, who carried the American flag through Paris at the head of the 28th division in the summer of 1944 when it was on its way to the front.

Following the review, a special state police detachment under the command of Maj. Thomas Henry of the Hershey training school staged a rodeo.

The state department declared that "the overwhelming majority of Hungarian citizens thus far disenfranchised are non-Communists."

The British foreign office said that "large numbers of the population" of Hungary are reported excluded from the forthcoming elections "for no good reason."

Their half hats matched the gowns, and they carried colonial bouquets of mixed summer flowers.

Ralph Salmon, of Washington, D. C., was best man for his brother, William F. Salmon, of New Wilmington, and Harold Blewitt served as ushers.

The ceremony took place before an altar, decorated with palms and white tapers in branched candelabra. Mrs. Harold Burns, organist, accompanied Mrs. Vincent Whitman, soloist, who sang "I Love You Truly" and "Always" preceding the wedding. At the close of the service Mrs. Whitman offered "The Lord's Prayer." Organ music was softly resounded during the ceremony.

A reception, attended by 125 guests, took place in the church social room with the Misses Phyllis and Janet Hill and Mrs. John Buckwalter, of New Wilmington, as aides.

That's how smokers everywhere discovered the full meaning of the phrase, "Camels suit my 'T-Zone' to a 'T'..." that's why now, when smokers can get any cigarette they want... Camels or any other brand... the demand for Camels is the greatest in the 34-year history of this famous brand.

Try Camels today. Let your own taste and throat... your "T-Zone"... tell you why with millions of smokers Camels are the "choice of experience!"

I'VE TRIED THEM ALL—CAMELS SUIT MY 'T-ZONE' TO A 'T'!

Your "T-ZONE" will tell you... T FOR TASTE... T FOR THROAT... That's your proving ground for any cigarette. See if Camels don't suit your "T-ZONE" to a "T"!

Navy To Test New Jet Plane In Frigid Clime

Experiment Shows New Emphasis
Being Placed On 'Polar Con-
cept' Of War

WASHINGTON, Aug. 18.—(INS)—The Navy placed new emphasis Friday on the "Polar Concept" of future warfare by disclosing it will test the Phantom, a jet fighter airplane, on frigid Mount Washington this winter.

The plane will be exposed to the icy blasts sweeping the highest mountain peak on the East coast, in temperature expected to drop to 40 degrees below zero.

Navy officials said the 6,288-foot site was selected because of the severe icing conditions it breeds along with the 150-mile-an-hour winds that sweep through that part of the White Mountains.

Mount Washington also is unique in the United States in that it bears vegetation similar to that of the Arctic regions in which many military experts believe the decisive battles of the next war—if any—may be fought.

Naval aeronautical engineers explained that a primary object of the tests will be to correlate engine and wing icing conditions in order to determine whether the jet engine under operating conditions or the plane's wings will ice-up first.

The tests will be conducted by engineers from the Aeronautical Engine Laboratory, Naval Air Material Center at Philadelphia and the Aircraft Icing Research Laboratory of the Wold-Chamberlin Co., Minneapolis.

National Guard Day Proclaimed For September 16

WASHINGTON, Aug. 18.—(INS)—President Truman Friday proclaimed Sept. 16 as National Guard Day and declared that the security of the nation demands that the guard be fully equipped and trained to meet emergencies.

The chief executive labeled the National Guard as a "bulwark of our military forces in struggles against foreign aggressors and in the support of our people in times of domestic disaster."

Mr. Truman called upon all citizens to support the National Guard in his special proclamation setting aside Sept. 16 to observe the services performed by the nation by the guard organization.

The President said: "This security of our nation demands that the National Guard be fully manned, equipped and trained as a force immediately available in time of national danger."

He called attention to the fact that Sept. 16 marks the seventh anniversary of the entrance of the National Guard into the nation's service during the emergency preceding the Second World War.

The President added: "I also remind our citizens that a responsibility rests upon them for the support of the National Guard of the United States, and I therefore urge that all our citizens give their earnest attention to the units of the National Guard in their communities and assist in the organization, recruiting and development of those units in every way possible."

Re-Elect Tobin Teamster Head

Has Served Continuously Since
1908; To Name Executive
Vice President

SAN FRANCISCO, Aug. 18.—(INS)—Daniel J. Tobin again remained president of the AFL International Brotherhood of Teamsters today as the convention came to a close in San Francisco.

He was re-elected to the post he has held since 1908 by some 2,400 delegates.

Elected with Tobin as the final act of the convention were the incumbent secretary-treasurer and nine vice presidents on Tobin's administration slate.

Taking office for a five year term were Secretary-Treasurer John F. English and the following vice presidents:

Michael J. Cashal, New York; John P. McLaughlin, San Francisco; D. J. Murphy, St. Louis; John J. Conlin, Hoboken, N. J.; Thomas J. Farrell, Cincinnati; Dave Beck, Seattle; Edward Crumback, Philadelphia; Sidney L. Brennan, Detroit; and John T. O'Brien, Chicago.

The convention adopted a constitutional amendment creating the post of executive vice president, but Tobin announced earlier it would not be filled until after Dec. 1.

Reports circulated at the convention that the job would go to Beck thus making him "their apparent" to Tobin, but Beck declined in debate on the amendment that any deal existed between him and Tobin.

Around Hollywood

By JOHN TODD

International News Service Staff Correspondent

HOLLYWOOD, Aug. 18.—Phyllis Calvert, the British star, likes everything about Hollywood except one item—the tea.

She said: "I don't know why it is but it's impossible to get a good cup of tea over here."

"When I first came to America I thought that it was because people didn't know how to make it, but I found that that wasn't so."

Likes Her Tea
"I can't make a good cup of tea here myself. It may be the tea, or it may be that the water is different here."

"I am accustomed to drinking six or eight cups of tea a day at home, or even 10 if that day I'm worried about something."

Miss Calvert expects to make up for lost time when she returns to London in October.

She's now in the midst of her second American picture, "My Own True Love" for Paramount.

She hopes to come back to Hollywood to do another picture after she makes one in London.

In fact, she'd like to become a commuter between Hollywood and England.

Hussey 'The Brain'

When a Hollywood columnist recently referred to Ruth Hussey as "The Brain," Miss H. was miffed.

The erudite brunette film star just wasn't keen over joining the select club that includes such character members as "The Look" (Lauren Bacall), "The Voice" (Sinatra), "The Beard" (Monty Woolley), "The Eyes" (Janis Carter), and "The Body" (Marie MacDonald).

Miss Hussey explained: "It all started when I made a guest appearance on a radio show last year. The board of experts fired questions at me and I was lucky enough to know the answers."

One of the issues expected to create heated discussion is a report on policy authorizing ITU men to cross picket lines of other craftsmen of the allied printing trades.

About one-third ounce of dry rubber is obtained from each tapping of a rubber tree.

No new member of the Congress now in session wears a beard. This is more than can be said of many bills already introduced for pet projects, which have been bewhiskered for many sessions.—Oskaloosa, Iowa, Herald.

Question Two In Murder Of Woman At Baltimore, Md.

BALTIMORE, Aug. 18.—(INS)—Police today questioned two men in connection with the murder of Mrs. Mina Taylor, 32, a pretty New York divorcee whose badly-beaten body was found on the lawn of a suburban Baltimore home yesterday.

Police said one of the suspects came to Baltimore from New York City two days ago and had been seen with the victim.

The other man being questioned is a Baltimore resident.

Mrs. Taylor's body was discovered on the lawn by a passing motorist who summoned police.

Many lilac shoots were carried to America by the Pilgrims on the Mayflower.

Argentine Foreign Minister Pledges His Nation's Help

(A firm pledge that Argentina will not stand in the way of mutual agreement among nations at the inter-American defense conference at Petropolis in Brazil is given in the following exclusive statement by Argentine Foreign Minister Juan Bramuglia.)

By DR. JUAN A. BRAMUGLIA
Foreign Minister of the Argentine
(Written Especially for I. N. S.)

PETROPOLIS, Brazil, Aug. 18.—During the present conference Argentina will work most decidedly and energetically toward consolidation of American solidarity, thereby giving historic, traditional continuity to Argentine ideals of the past.

I hold the view that the treaty

to be signed at this conference should be subject to unanimous vote. But in its desire to maintain harmony Argentina will not adopt an intransigent attitude.

I understand that in order to reform and apply decisions born within the unanimous conception of defense of the continent it is necessary also to have unanimity of thought among the signatory nations.

This is quite clear and evident if we observe the tradition in such matters existing throughout the continent.

All Should Band
If any act of aggression or armed attack against an American state is an attempt against all the American states, it is logical to suppose that every one of them should participate in the corresponding moral or material condemnation of the aggressors.

Nevertheless, as I already said, Argentina will accept the will of the majority in all matters affecting continental defense. It is the idea of healthy democracy that should prevail.

Juridical equality of the states on this continent is an expression of truest continentalism.

The conference agenda has one single objective: To give treaty form to resolutions adopted at Chapultepec. But there is another fundamental problem to which the conference should give time and consideration—the economic problems of America.

In this connection Argentina favors calling a continental consultative conference in order to establish ways and means of procuring continental economic confidence with participation by the directors of economy.

Such a conference would be highly beneficial to the American republics.

In conclusion, I am optimistic regarding the outcome of our deliberations.

Rebuilding Nations Seeking U.S. Technical "Know How"

By WILLIAM KERWIN

(U. S. Staff Correspondent)

WASHINGTON, Aug. 18.—Foreign nations, anxious to rebuild and enlarge their power dams and irrigation projects, are seeking American technical "know-how" more than ever before in history.

That's the opinion of the U. S. reclamation bureau which has been conducting at the state department's request on-the-job training programs illustrating how this country built up its vast multipurpose dams and irrigation projects.

William C. Summer, a bureau engineer, revealed that approximately 100 foreign students, many of whom are graduate engineers, have received permission to study first hand the engineering techniques employed to harness the rivers of the west.

Before the war, the program operated on a small scale with a relative few students coming largely from China, Latin America and one from Afghanistan who later became that nation's minister of public works.

Bulk From Far East
At present, the bulk of the trainees are coming from the Far East. Summers said trainees include 30 Siamese, 20 Indians and 35 Chinese.

four to six months and the trainees learned modern construction methods.

Students sent to the U. S. are required to study for at least one year during which time they are trained by performing actual work. Summers said this helps to defray training expenses.

The reclamation officials declined to state whether the program will be enlarged or cut down in the future. However he said:

"The future of the training program is undertermined in that it is entirely dependent upon the policy of the Department of State."

Trainees are scattered throughout the design and construction offices as well as the regional offices of the bureau and become familiar with practically every aspect of reclamation activities.

The U. S. has around 14 per cent of the world's lead reserves.

Used Fats Are Still Badly Needed!

Says the Food Editor
of McCall's,
HELEN McCULLY

So many women write to our magazine and ask if they should keep turning in their used cooking fats. Most certainly yes! There is still a shortage—not only in the United States but all over the world. Here is what Secretary of Agriculture Clinton P. Anderson says: "It is still necessary to conserve every pound of used fat, since the over-all fat supply situation is little better now than it was last year." That's why we American women must keep on saving used fats until the world-wide shortage is over!

BODY IDENTIFIED

PITTSBURGH, Aug. 18.—(INS)—Coroner's deputies today tentatively identified the body of a woman found in the Allegheny river in Pittsburgh as Mrs. Louise Zinowski, 75, of suburban Springdale.

Relatives said she left home Saturday evening apparently bound for a movie. The body was recovered late Sunday.

Sheriff Warns On Rural Thefts

Keep Doors Locked When Away, And Report Strangers To Police Authorities

OTHER NEWS OF COURT HOUSE HILL

Sheriff Frank L. Coen today issued a warning to residents of the rural districts to watch out for sneak thieves who are again active in Lawrence county, several cases having been reported recently.

If going away from home or leaving the house to go out in the fields, they are warned to keep their doors locked. These particular sneak artists generally come to a farm home and knock on the door. If anyone answers they inquire for someone living nearby, if not, they proceed to go through the house.

The articles stolen more recently have been electric goods, such as sweepers, clocks, radios, etc. Guns have also been taken.

If a stranger comes into the community acting suspiciously, residents are asked to get the license number of the car and report it to the sheriff's office. An investigation will be made into their activities.

SCHOOLS TO START SOON

Some of Lawrence county schools will start two weeks from Tuesday, County Superintendent of Schools John C. Syling announced today. This gives the rural school folks only two more weeks to get ready, the start in some instances being made earlier than usual, due to the fact that Labor Day falls on September 1 this year.

The situation is in fairly good shape this year, Mr. Syling reports, and it is believed most of the township school districts will have less trouble in getting teachers this year than heretofore.

Building Falls, Truck Loader Critically Hurt

AKRON, O., Aug. 16.—(INS)—Ernest P. Yeager, Jr., 20, of Akron, was reported in critical condition today after his left leg was severed when the Wellock Auto Parts Company building collapsed yesterday.

According to police, a truck backed into one of the walls of the building, collapsing the wall and causing the roof to fall in. Yeager, who was unloading the truck, fell in trying to escape and was pinned under the falling debris. He was taken to People's hospital.

CORNFIELDS ARE BEING DUSTED BY AIRPLANES

MARTINSBURG, Va., Aug. 18.—(INS)—For the first time in history farmers near Martinsburg turned to airplanes to save their corn crops from destruction by hordes of Japanese beetles.

Planes from two airfields today were completing the job of dusting the fields with a five per cent solution of DDT. The effectiveness of the system was noticeable immediately.

HAS A WAY ABOUT HIM

MEADVILLE, Pa.—(INS)—When Sam Way was in boot camp at Great Lakes Naval Training Station, Great Lakes, Ill., in 1942, he amused himself in idle moments by cutting his initials in pennies. The other day one of the pennies came back to him in change with a package of cigarettes from a vending machine.

Part Of Burden

Part of the burden we put on our presidents is this business of public appearance and ceremony. In a publicity-conscious world, it is almost a full-time job in itself.

No other great nation makes one man fill two offices, each of them exacting beyond belief. In Great Britain, the king and queen open art exhibits and confer honors on national heroes. Prime Minister Clement Attlee doesn't have to take time out from his handling of the current economic crisis to make ceremonial appearances. For the working head of the government in Britain that sort of thing is held down to a minimum.

In France they have a president who is largely a public greeter and public opener, and a premier who does the hard work. In Canada and the other dominions, a governor-general puts on the public show while the prime minister is the working head of the government.

Curious Sensation

Before 1900—well, say even before 1918—the presidency in this country was difficult but not impossible. Even in the '20's, Calvin Coolidge managed to sidetrack some responsibility. It is a curious sensation to flip through the files of a newspaper of twenty years ago. A Negroan revolution got the headlines, and President Coolidge was relaxing with newsreel cameras, in the Black Hills.

President Truman will get one break. Unless there is something urgent to call him back to Washington, he will return at least part way from Rio on the battleship Missouri, that will mean the nearest to a real vacation that a president can ever have. We put an awful penalty on a president, and the remarkable thing is that so many men go on wanting the job.

WARNS OF ARGENTINA

WASHINGTON, Aug. 18.—(INS)—Rep. Bender (R) Ohio, warned Saturday that Argentina is looking "more and more" to Europe for guidance and asserted that the United States must be more vigorous in its foreign policy south of the Caribbean.

The congressman said that "fascists and communists are engaged in a deadly tug of war south of the Caribbean and Washington knows it."

The "little red schoolhouses" of a few generations ago in New England and other northeastern sections of this country were so painted, not because that color was preferred, but because red paint was cheaper than any other kind.

LESS A BIG ALLOWANCE FOR THE OLD TIRE OFF YOUR CAR

We have a big market for sound used tires. On your car, it is impossible to detect the exact condition of a tire. But we have the experience and equipment to examine them thoroughly, to detect flaws and to select casings suitable for repairing, recapping or reconditioning. This knowledge is extra money in your pocket, because we can give you a bigger allowance if your tires can be made safe for further use.

And this allowance comes off the already lower-than-prewar price of most popular-sized B. F. Goodrich Silvertowns that outwear prewar tires. This new tire has a wider tread that runs flush-to-the-road, gives greater road contact, firmer footing, more even wear, more road grip. Finer, sturdier cords and more of them give the tire greater strength and suppleness to resist the road pounding of high speeds. So don't be satisfied with less than the best when the tire that outwears prewar tires costs so little.

NEW, DANGEROUS WEEDS DISCOVERED

Farmers may think they have an abundance of bad weeds, but there are quite a few very dangerous ones which fortunately are still rare. If these are taken in time they can be controlled readily. Otherwise, they may quickly get completely out of hand.

Leafy spurge is a very serious weed in some parts of the west. Recently a small very thick patch of it was found in a timothy field in Columbia County, Pennsylvania. This weed resembles the "cypress" spurge commonly planted in rock gardens and around homes, but is several times as large up to 2 feet in height. It has the same yellowish green flowers and is easy to recognize. It is a perennial which spreads from the root and may take almost complete possession of an area. It is spread by the seeds which may be scattered by birds or carried in crop seeds or in manure. Pieces of the root also may be dragged by harrows and cultivators to start new infestations. Small patches should be killed with liberal applications of salt, oil or chemicals such as sodium chlorate and borax.

Recently much Argentine alfalfa seed (which is stained 5 per cent red) has been used in the state. Not only is this Argentine alfalfa likely to lack the necessary hardiness to survive our winters but in some cases it is reported to have contained the seeds of several different weeds of the thistle family which are entirely new to Pennsylvania and which look serious. If these are allowed to go to seed and spread they may add materially to our already serious weed problem.

Any unfamiliar weed, especially if it is a perennial with a running root, should be brought promptly to the Lawrence County Agricultural Extension Office for identification. Seeding should be carefully prevented and vigorous measures taken to eradicate anything which promises to become serious. You can't argue with a weed, you have to kill it.

After it gets all over a field and has filled the soil with its roots or seeds you may simply have to learn to live with it and that may be difficult.

National Guard Units Recognized

Guard Bureau Chief Says 2901
Ground And Air Units Get
Federal Recognition

WASHINGTON, Aug. 18.—(INS)—Maj. Gen. Butler B. Miltonberger, chief of the National Guard Bureau, announced Saturday that 2,901 ground and air units of the postwar National Guard have achieved federal recognition.

The guard is authorized 6,382 units and a total of 682,000 officers and men. To date, more than 100,000 men have joined the Guard to make up the 2,901 units, and a concentrated effort is to be launched this fall to increase its manpower to close to 200,000.

The report on the Guard strength was made public shortly after President Truman proclaimed Sept. 16 as National Guard Day and warned that the nation's security demands a strong reserve force.

The president described the Guard as a "bulwark of our military forces in struggles against foreign aggressors and in the support of our people in times of domestic disaster".

Rebuilding Force
The "once-a-week-soldiers" of the National Guard provided the bulk

of forces this nation was able to put into the field early in World War II, and the war department is making every effort to rebuild the Guard into a formidable force. Miltonberger said:

"As the nation's M-Day force against aggressive attack it is important that the National Guard be brought to full strength as soon as possible".

The new Guard is using the pre-war system of training periods, but as rapidly as possible it is being equipped with latest weapons and equipment. The war department is anxious to avoid, if possible, a repetition of the situation that prevailed in 1941.

Dr. Bennett Speaks To Large Audience

Increase In Attendance Noted In
Outdoor Worship Service At
First Christian Church

In a most impressive address, Dr. G. S. Bennett, pastor of the First Christian church, spoke before one of the best attended outdoor services of the churches of the city, Sunday evening, on the lawn of the First Christian church.

Choosing to address the audience on the subject, "What Lack I Yet?", Dr. Bennett based his theme on the text found in Matthew 19:20. The well rounded out sermon dwelt on the three pointed questions: What do we lack as a nation, as a church and as an individual? It was pointed out that our aim for world peace is far from being achieved. More unity is needed in the church and also we as individuals need to put more personal faith and trust in God and Christ.

Directing the service was James Thompson, who introduced the features of the service. Miss Mary Abraham, sang two solo numbers and directed the audience in singing. Mrs. Helen Rainey presided at the piano.

The services will be resumed next Sunday evening at 6:45 o'clock on the First Christian lawn.

Children From Mooseheart At Big Convention

COLUMBUS, Aug. 18.—A special train will bring 300 students from the "Child City" at Mooseheart, Ill., to the 59th annual international convention of the Loyal Order of Moose in Columbus from August 17 to 21.

Included in this group of students will be the famous Cadet Corps, Girls' Marching Unit, Girls' Physical Education Group and the Concert Band. These students will participate in the big, colorful parade which will be held Wednesday morning, August 20. The Concert Band will also appear at the convention that morning, announced Malcolm R. Giles, executive director of the Moose.

Mooseheart is a private preparatory school maintained by the Moose Fraternity to care for its dependent children. It consists of 1157 acres of colorful landscape, including woods and a twenty acre lake. More than 100 buildings and eight miles of winding avenues and roads comprise the "Child City".

Clytie, in classic myth, was a sea nymph, daughter of Oceanus, who fell in love with Apollo, the sun god. Meeting with no return of her affections, she was mercifully changed into a sun flower, which constantly faces the sun throughout his daily course.

Torrid Wave To Continue For Three More Days

(By International News Service)

The U. S. weather bureau predicted today that the current heat wave would continue for three more days throughout most of the nation.

Dry, hot weather was the rule throughout most of the nation. Dry, hot weather was the rule throughout the midwest, sections of the south and southwest.

Only a few spots in the Rocky Mountains and the New England states enjoyed comparative cool weather.

New York weather continued cool and cloudy with occasional light rains. Temperatures hovered in the middle 70's. A heavy downpour during the week-end in some sections of the Metropolitan area flooded the streets and delayed flights at La Guardia field.

Some Relief In Pennsylvania
Heavy rains also brought relief to sections of Pennsylvania.

But in the rain-soaked midwest, corn belt farmers looked forward with foreboding, to three more days of the oppressive and scorching weather.

Ohio, sections of Michigan, Illinois, Indiana, Kansas, sections of Nebraska, and Missouri could expect no break in the weather until late Wednesday night or early Thursday.

Temperatures were expected to range from 90 to beyond the 100 mark.

The U. S. weather bureau in Atlanta assured hundreds of callers that increasing cloudiness this week will "knock out" any new heat wave.

But rising temperatures throughout the southeast yesterday and today indicated that temperatures would hover in the mid 90's.

Southeast winds brought in an air mass off the Gulf of Mexico to lower the 88-degree temperature prevailing along the coastal area of Louisiana.

Minor "Cool Air" Front

A minor "cool air" front stretched this morning from Sioux City, Ia., through Minneapolis, Park Falls, Wis., and Muskegon, Mich., to Traverse City, Mich. North of the line early morning temperatures were in the 60's, but south of the line temperatures rose sharply.

Possible relief was seen by the weather bureau in the snowfall in Beaton river, British Columbia. But when the effect of the snowfall would reach this country was problematical.

Presidio, Tex., still had the highest temperature—a scorching 102 degrees.

In the Miami, Fla., area, the weather bureau reported squalls with winds reaching 35 to 40 miles an hour. The report said there was no indication of a tropical disturbance.

The nation's capital expected only temporary relief today with a high of 82 and low of 73 expected.

Cooler spot in the nation again was at Big Piney, Wyo.—a freezing 27 degrees.

Charge Brigade Being Trained To Invade Dominica

BUDAPEST, Aug. 18.—(INS)—Hungarian Premier Laslo Dinnyes declared today that one hundred thousand more citizens have been declared eligible to vote in the forthcoming elections than in the general elections of November, 1945.

The United States and Britain

charged yesterday that the elections have been rigged to insure a Communist victory by the disenfranchisement of an estimated million voters.

Dinnyes, speaking at the southern Hungarian town of Pecs, said 3,300,000 Hungarians have been qualified to vote.

He said 460,000 persons have been barred, including 170,000 "Schwabens"—German-speaking inhabitants who are scheduled to be repatriated to Germany.

Before the war, Belgium was 80 to 85 per cent self-sufficient in foodstuffs.

Methodists Going To Conneautville

Annual Picnic At Ida M. Cribbs Methodist Home On August 26

Methodists of Lawrence County expect to be well represented Tuesday, August 26, in Conneautville, Pa., when the annual picnic at the Ida M. Cribbs Methodist Home will be held. Abandoned during the war due to gasoline shortages, the picnic has been resumed this year and a delegation from every Methodist church in the Erie Conference is being asked.

Rev. G. H. Palmer of Kane, Pa., is the general chairman of the picnic and he has said that picnic table facilities will be made available for all who come. An athletic program is being arranged and there will be a short program of speaking.

To Inspect Home

The picnic will also give Methodists the opportunity to inspect the home for the aged which is maintained by the Erie Conference. In 1919 Hyatt Cribbs gave his own home and an adjoining home to the conference for a Home for the Aged. Over the years it has been improved and enlarged but the limit of ingenuity has been reached.

A new home is needed to care for the aged properly and it is hoped that within the next few years funds for the new home will be forthcoming. An excellent job has been done at the Home under handicaps but if the aged are to be cared for in the way they should, new quarters must be provided.

The picnic has been designated as "Field Day" and the field includes every church in the Erie Conference and friends in other conferences. The speaker of the day will be Dr. E. H. Babbitt of Chicago, Ill., who represents the Methodist Board of Hospitals and Homes.

Relief Payments Slightly Higher

HARRISBURG, Aug. 18.—(INS)—The Department of Public Assistance reported today Pennsylvania relief expenditures during July were \$7,614,000, a 60 per cent increase over costs for the same month of 1946.

The gain was attributed to "an eight per cent increase in the average payment per person receiving aid and a 48 per cent rise in the number of assistance recipients."

Enrollments shot up due to job displacements following the return of veterans and the increased cost of living, the department claimed.

A Washington dispatch says the Treasury's \$754,000,000 surplus for the fiscal year represents the "amount by which government income exceeded spending." Thanks for the explanation. We never could have guessed it.—Arkansas Gazette.

Charge Hungarian Elections Are Rigged

CIUDAD TRUJILLO, Aug. 18.—

(INS)—The Dominican republic charged today that an "international brigade" including communists is being trained on Cuban soil for invasion of Dominica.

The official Dominican statement said the alleged brigade includes a number of "veterans of the Red (Republican) side in the Spanish (civil) war."

The statement, distributed by the Dominican information center, added: "This situation could possibly give rise to war of great and serious proportions between Cuba and the Dominican Republic with consequences of international and inter-continental of hemispheric peace."

Gen. Rafael Trujillo's government charged that while the Cuban government promised that it would conduct an investigation, "Cuban officials have refused to do so, despite the openly apparent fact that preparations are actively continuing for this deliberate unjust aggression."

Mrs. Anthony Masters, son Tommy and sister-in-law, Donna Jean Masters of 208 South Wayne street, have returned after visiting with the former's parents, Mr. and Mrs. John Carr of Bessemer.

Both sides acceded to the request of the United Nations that there be a truce in Indonesia. This was especially easy for the Dutch as they had already occupied all the strategic spots on the islands.

Many families pretend they are getting along fine, just to keep up appearances, although they know that sooner or later there will be a big explosion. Just like we are doing with Russia.

Pittsburgh Area

Population Jumps

PITTSBURGH, Aug. 18.—(INS)—

Population of the Pittsburgh metropolitan district has increased approximately five per cent since 1940, the federal census bureau revealed today after a sample.

The report, the result of a survey made April 14 through May 9, gave the population of the district as approximately 2,100,000, an increase of 106,000.

The census bureau includes Allegheny county and portions of Beaver, Fayette, Washington, Westmoreland and Greene counties in the Pittsburgh metropolitan district.

Truman Urges Strong Guard Units Built

President Says We Must Support Powerful Guard To Protect Our Security

WASHINGTON, Aug. 18.—(INS)—President Truman today urged the nation to support a strong National Guard in the interests of the country's security.

The President's message was issued as recruiting managers from the 48 states, Hawaii and Puerto Rico met in the War Department to complete strategy for "Operation 88,888"—the guard's fall enlistment drive scheduled from Sept. 16 to Nov. 16.

Mr. Truman asserted in a special statement that "a strong National Guard is necessary to the security of the United States."

He declared:

"Because of this fact, our military leaders have planned a new National Guard which will take its place in the national military establishment as a force in being, available for immediate mobilization and service."

100,000 Recruited

"In a little more than a year that the states have engaged in the rebuilding of the National Guard more than 100,000 men have been recruited. This is a remarkable achievement when it is considered that the National Guard was completely demobilized as its personnel was separated from federal service. But it is still far short of the ultimate goal."

The President said that because of the importance of the National Guard to the nation's defense he has proclaimed Sept. 16 as National Guard Day.

That date marks the seventh anniversary of the entrance of the National Guard into federal service during the emergency immediately preceding the Second World War.

The chief executive said the immediate goal of the campaign is 38,888 new men for the National Guard—a guardsman a minute during the two month's recruiting campaign.

Report Dowager Queen Receives Windsor Duchess

NEW YORK, Aug. 18.—(INS)—The New York Daily Mirror reported from London today that the Dowager Queen Mary finally has received the Duchess of Windsor at a secret meeting.

The Mirror's society editor, Barclay Beekman, said only members of the Royal family and statesmen close to the Crown know of the historic gathering which occurred on the former Wally Simpson's recent visit to England.

Political considerations were reported as having motivated the Queen mother's change of heart.

In his account of the "amazing report from London," Beekman said London editors were asked not to print rumors of a reconciliation between Queen Mary and the commoner for whom her son forsook his throne.

The Mirror said the chief effect of the meeting was a decision by the Windsors to go to the south of France this summer instead of to Newport, R. I.

Beekman said the Duchess has not yet received permission to be called "your royal highness."

The blonde strip-teaser said she wanted a divorce and couldn't get the evidence needed against her husband. So she put in a personal appearance in the hallway of Sally's hotel, and declared she heard her husband and Miss Rand talking.

Mrs. Finkelshtein asserted the conversation was not business. She swore out a warrant charging Sally and her husband with disorderly conduct.

Charge Evasion Of Income Taxes

PITTSBURGH, Aug. 18.—(INS)—Income tax evasions of nearly \$375,000 today were charged against two Pittsburgh industrialists in federal court.

The two named in the indictments were Gustave H. Kann of Pittsburgh, president of the Pittsburgh Crushed Steel Co., and his brother, William L. Kann, secretary treasurer of the company.

Indictments against the two were returned in federal court at Erie, Pa., last March 19, but were impounded by the court until today.

1. Gustave H. Kann falsified his income to avoid payment of \$110,336 in individual income taxes.

2. William L. Kann falsified his income to evade payment of \$87,555.

3. The two together falsified the company's income to evade payment of \$177,067 in excess profits taxes.

They were released in bonds totalling \$15,000.

BANQUET ENDS WELCOME HOME

(Continued from Page One)

Sella was in charge of the dinner and asked Rev. Fr. Charles D. Beck to pronounce the invocation. Bart Richards was introduced as the toastmaster.

Louis B. Round, vice president and general manager of the Pennsylvania Power company was the principal speaker. His address was one of retrospection and appreciation. "You men were not fighting for land or money or honors, you were fighting for a principle," said he. "The principle that men should live as free men, that men should have the right to think and act and worship in their own way, in safety and peace."

All Battle Fields

In the crowd of veterans one could see the marks of every battle field of World War two. The European theatre, the Battle of the Bulge, Anzio, Salerno, Normandy, Tarawa, Guadalcanal, the Philippines, the China-Burma-India front, all of them were there, and with the battle ribbons of many were the purple bar that denotes wounds in action. Rev. Beck pronounced the benediction.

It was a grand dinner, and a grand day. The streets were dressed in carnival fashion and the guests enjoyed themselves in dozens and out. A band concert followed the dinner but the rain spoiled the fireworks. These will be shown tonight.

West Pittsburg and Taylor township had a peculiar and admirable record during the war. Never a group of men went away but there was a community dinner, with gifts. During the war the men were sent letters and boxes and in the distance the Welcome Home party loomed as the cap sheaf of the war.

That came Saturday and it was done in typical West Pittsburg fashion. Wholeheartedly, cheerfully and generously, it convinced the men of West Pittsburg and the township that the folks back home meant what they said.

Breaks Give Cardinals Weird Sunday Victory Over Pirates

Rain Puts End To Second Game With No Scores

Small Boy Grabs Ball, Gives Cards Needed Run To Win First Game Sunday 6-5

DODGERS LOSE THEN TIE WITH PHILLIES

By LES KONKIN (International News Service Sports Writer)

NEW YORK, Aug. 18.—The St. Louis Cardinals may win the National league pennant this year simply because a small boy in Pittsburgh wanted a baseball yesterday and old Juke Pluvius got out his crying towel at a critical moment.

The Cards, instead of playing and winning one game but for these two breaks.

The first one occurred in the first inning of the opening game when the horsehide-hungry youngster jumped out of a box and grabbed a loose ball during a St. Louis rally. A Cardinal runner on third was advanced to the home plate on this interference, and this tally proved to be the run that gave St. Louis a 6 to 5 margin.

Stopped By Rain

St. Louis got its second break in the nightcap, a 4½-inning scoreless duel between Murray Dickson of the Cards and Mel Queen, Yankee cast-off.

The Pirates were just starting to get a piece of the ball in the fifth, Hank Greenberg batted Terry Moore against the bullpen in left center for a long fly, and Billy Cox smashed a line double to the same sector. Dickson was on the ropes, but a driving rain started in the nick of time to save him.

Set Crowd Record

Pittsburgh set two records. The crowd of 35,827 pushed Forbes field attendance over the million mark for the first time in the 61-year history of the club. And homers by Frank Gustine and Greenberg in the opener ran the Pirate total to 16 for five successive games, a new National league record.

The Cards advanced to within 4½ games of the Dodgers, who need banjos and boxing gloves instead of fielders' mitts against the Phillies. Dutch Leonard, Mr. Knuckle Ball himself, racked up his 14th win and blanked the Brooks 4 to 0, thanks partly to no less than seven Dodger errors.

Philadelphia's Sunday law halted the nightcap after six innings with the score tied at 4 to 4.

Braves Win Two

Boston's Braves not only took a strange hold on third place but loomed as a definite pennant threat by taking two more from the Giants, 2 to 1 and 3 to 1, behind Warren Spahn and bad Bill Voiselle.

Ewell Blackwell, after a prolonged slump, blanked the Cubs 2 to 0, thanks to Grady Hatton's two-run homer. The Elmer now has 19 wins and six shutouts. The Reds also took the nightcap, 11 to 3.

Red Sox Win

In the American league, the Boston Red Sox salvaged the finale of a three-game series and cut New York's lead to a bare 1½ games by scoring three runs in the 11th to win 3 to 0.

Connie Mack's sprightly Athletics advanced to within one game of the third-place Tigers by beating Washington twice, 2 to 1 and 5 to 2.

Detroit shaded the Chicago White Sox, 4 to 3, after Taft Wright's homer had given Ed Lopat of the Sox a 1 to 0 verdict over Fred Hutchinson in the opener.

The St. Louis Browns gave Bob Feller an early shower and beat Cleveland 7 to 6 on Paul Lehner's three-run homer in the ninth, but the Indians took the nightcap, 4 to 3.

COUNTY LEAGUE MEETS TONIGHT

Managers of the first five teams in the Lawrence County league were reminded today that there will be a meeting this evening in the Sporting Goods store beginning at 8 o'clock.

Matters incidental to the play-offs for the loop championship will be discussed and it is urgent that the pilots involved attend the session.

Legion Title Play To Start

Ceremonies Are Planned For First Game In Playoff Series At Washington Field

Elaborate ceremonies have been arranged for the opening game of the playoff series for the American Legion Junior league championship this evening at George Washington field, which will start at 5:30 o'clock sharp.

Mayor John P. Haven will toss up the first ball. Councilman Jim Gibson will do the receiving and Commander E. Gene Schweinsberg will try and hit it.

The game will be between the Lockleys, first half champions, and Gus' Nine, second half winners.

Cards-Dodgers Opening Series

St. Louis Could Leave Brooklyn Wednesday With Lead In Possession

NEW YORK, Aug. 18.—(INS)—There will be blood on the threshold and spleen in the air today at Ebbets field, celebrated cockpit for the municipal "rhubarb" and home of the resonant boo.

The Brooklyn Dodgers and St. Louis Cardinals, now as nearly always in late years the one-two clubs of the National league stretch-run, have a little unfinished business to attend to, which is nothing new. They've been trying to finish it for seven years.

Showdown Time

In other words, it's the old, grim, hard-pun routine of the St. Louis and Brooklyn late season showdown—this time a four-game, three-day tournament of rancor and violence whose repercussions might well be lasting. They may even decide the pennant issue, outright—or leave it in a near-snarl.

That would happen if the Cardinals swept the four-game program, beginning with a day-and-night double header and following with single games tomorrow and Wednesday. Anyhow, they were 4½ games back when they came into town from Pittsburgh after picking up a full game there yesterday to the Dodgers, who blew one to the Phillies.

Chicago Bombers Here On Friday

Famous Chicago Ball Club Will Play Jay-Bees At Flaherty Field At 8:15 O'Clock

Friday evening, August 22, and Saturday, August 23, the famous Chicago Brown Bombers will be at Flaherty field for a two-day series with the Johnson Bronze Jays ball club, with the games slated for 8:15 o'clock start both evenings.

This is one of the strongest colored teams in the Chicago area and will have a real show to offer the fans. The Bombers are on a par with the Grays and Clowns, according to advance press notices.

Have Great Record

Manager Mike Duffley will have his strongest possible lineup ready for the two-day series with the Bombers. Jake LeBeac will be here to pitch one game and Corbett will start the other game.

The Bronze with 21 wins and two defeats are making quite a name for themselves in semi-pro circles. Many of the leading teams in the eastern part of the country are being lined up for the Jay-Bees for this year and next spring. Using all New Castle talent outside of his pitchers, Manager Duffley has turned out a great team here and one that has caught the fancy of the fans.

The Jay-Bees are the National Baseball Congress state champions.

HERE AND THERE IN SPORTS' LAND

PAYMENT of \$1,000 as a contribution to the Pennsylvania fish commission has been made by the Armour Leather company, at Noxen, Wyoming County, to cover costs of fish killed in Bowman's Creek, caused by pollution of that stream by wastes which flowed from a lagoon maintained for the purpose of abating pollution of the waterway. According to company officials the lagoon attendant, who regulates the flow of the liquid to the stream after it has settled in the lagoon, became suddenly ill and he placed another employee in charge of the work. This man was not acquainted with the system and increased the flow from the lagoon in an amount which caused the killing of fish. . . . The lagoon is a member of the sunfish family. . . . Green wood burns best bluggit in a member of the sunfish family. . . . This is due to the fact that the heat is reflected back from one piece to another and cold air is kept away according to Sports Affield. . . . George Chip, former middleweight champion, will celebrate his sixtieth birthday within a few days. In connection with the coming event, Frank Ward, Sports Editor of the Youngstown Vindicator, recently paid Chip a brilliant compliment. In brief, he wrote that in his early days as a writer of boxing he took his problems to the late Jimmie Dime and George Chip and they put him right in regard to them.

Mildred (Babe) Didrikson Zaharias intends to forsake the amateurs and accept a \$300,000 movie contract. She won both the American and British women's golf titles. . . . Huelet Benner, Fort Knox, Ky., is the new national all-around pistol champion, following his upset victory over Harry Reeves, around pistol champion, who held the title seven years in the 63rd national rifle and pistol championships at Camp Perry, O. Benner, a 36-year-old rifle and pistol instructor, fired a new national match record score of 2609 points out of a possible 2700 to defeat Reeves, who tied for second with Emmet Jones Los Angeles police lieutenant, at 2582. The old record of 2586 was set by Reeves in 1946.

Ellwood Moose, Bessemer Post Shut-Out Wins

Tubers Record 3-0 Win Behind Bauder; Stanley Hurls Cementers To Victory

Ellwood Moose and the Bessemer Cementers got off to jet-propelled starts in the County League play-off series yesterday, winning via the shutout method.

In Ellwood City, Ellsworth Bauder twirled his best game as he turned back the New Galilee "Hot Tubs" on two hits to win 3-0. Manager Homer Shadle and Sammy Ritz were the only "Tubs" who solved Bauder's slants, both recording singles.

Pete Ceratti did the Galilee heavy-lifting and was touched for nine blows, including a circuit smash by "Johnnie Joe" Daugherty, lanky Moose outfielder.
